## 1 Purpose

The purpose of this Environmental and Energy Policy is to outline the management direction and confirm its commitment to meeting the environmental standards and energy performance expected by our customers in the delivery of our services.

## 2 Statement

It is Kao Data’s policy to develop and maintain a framework for setting and reviewing our objectives and energy targets.

Kao Data are committed to meeting the requirements of the ISO 14001 and ISO 50001 international standard.

The Policy is communicated to all person(s) working for or on behalf of Kao Data (as part of induction training), is available to all employees via the IMS and is displayed in each office location to continually remind employees of the Company’s commitment to Environmental and Energy.

The Policy is also available upon request to all interested parties such as clients, investors, and suppliers.

The Policy is reviewed to ensure its ongoing suitability by the senior management team who recommend amendments and updates to the policy as part of the continual service improvement process, with an annual review of the policy undertaken annually as a minimum.
